FOR SERVICE PROVIDERS

SERVICES MARKETPLACE — PUGET SOUND

Do you work with realtors?

We can connect you with a listing agent while they are setting up the listing — the week they book the cleaner, the stager and the photographer, usually by asking a group chat and calling whoever answers first. **You should be one of the names they already have.**

30 DAYS FREE · THEN $29.99/MO · NO CONTRACT

Inside the app

Your listing sits in the services tab Puget Sound listing agents already have open.

They call you direct

Your number and email are buttons on the listing. We take no cut of what you agree.

One flat price

30 days free, then $29.99 a month. Never per lead, never per call, no commission.

Licensed agents, signed in, matched to where you work — nobody else sees it.

What an agent actually sees

The services tab — the one an agent opens while they are getting a house ready. Category filters carry counts, so an empty category is visible before the click.

Your listing opened: your name and area, a button through to your own website, Call and Email buttons, and your services with your prices.

Both are the real product, screens captured October 2026 — not a design of it. The businesses in them are examples.

The difference is not the price. It is the timing.

An ad can find people who look like your customers. It cannot know that a particular house goes on the market on Thursday — that is not a demographic, it is a transaction, and the only person who knows it is the agent running it.

Per-lead marketplaces	**$38.44 per lead**[2]

How it works

1

Paste your website

We read what is already public on it and fill in your listing — services, areas, a logo. Nothing is saved until you say so. No website? There is a skip.

2

Check it, then pay

You see the listing exactly as an agent will before any money moves. Your card is taken then — nothing is charged for 30 days.

3

Agents find it

It appears in the services tab, filtered to agents whose patch overlaps yours — the tab they have open while getting a house ready.

4

They call you

Your number and email are on the listing, so an agent can call from the driveway. Click-throughs to your site are counted, so you can tell it is working.

No website? You can still list.

The website box is a shortcut, not a requirement — there is a skip under it, and you fill the listing in yourself.

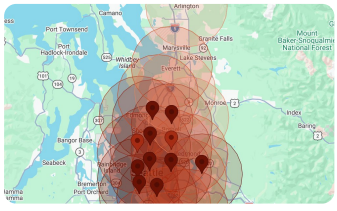

Do we take a cut of your work?

No. No commission, no per-lead charge, no percentage of a job. You keep everything you earn.

How do you cancel?

From your own portal, whenever you like — no email, no phone call. Cancel in the first 30 days and you are never charged at all.

Straight with you: we cannot promise you jobs, and we are not going to pretend otherwise. You are buying a place where agents look, in the week they are deciding — not a lead count.

Where the agents are

The real coverage, drawn from the areas agents set themselves — so you can see whether yours is one of them before you pay. Deepest around Puget Sound today, and opening in more markets.

Let’s get started

Paste your website and we build the listing for you. You check every line, then pick monthly or yearly. A person reads it — usually within one business day — and it goes live to agents in the areas you work.
